### **HÖRMANN Intralogistics appoints Rainer Baumgartner as new Managing Director**

Munich, July 01, 2024 – HÖRMANN Intralogistics Solutions GmbH is appointing experienced intralogistics specialist Rainer Baumgartner to the management board as an additional Managing Director alongside Steffen Dieterich as of July 1, 2024.

In his new role, Rainer Baumgartner will focus on responsibility for the Customer Service, IT Solutions, New Technologies and AutoStore departments. With his expertise in the areas of artificial intelligence and data science, WMS software, small parts warehousing, customer service and international experience, he is the ideal addition to Hörmann Intralogistics and will play a key role in shaping the company's further development.

HÖRMANN Intralogistics is known for tailor-made intralogistics solutions that cover the entire material flow – automated storage systems in conjunction with robotic solutions, managed and controlled by the high-performance warehouse management software HiLIS. Founded in 1987, the company is part of the Hörmann Group and has grown to over 300 employees, especially in recent years.

Disruptions and paradigm shifts in intralogistics, such as complete automation, artificial intelligence and the eCommerce boom, require a strong strategic orientation at the management level. Steffen Dieterich, Managing Director: "We are pleased to welcome Rainer to our management team. His comprehensive expertise, strategic thinking and sympathetic manner perfectly complement our "listening team". Together, we will successfully steer HÖRMANN Intralogistics into the future."

Dr. Christian Baur, CTO Hörmann Group adds: "With Rainer, we are gaining an experienced expert who ideally complements our team with his international experience and technological expertise. I am convinced that together we can drive innovative solutions and offer our customers even better service."

Rainer Baumgartner brings an exciting professional career with him, in which he has already been largely

## Press release

responsible for strong growth and success. He graduated from the HTL Leonding with a focus on IT & General Management and continued his education in Strategic Management and Corporate Entrepreneurship at the Johannes Kepler University Linz. He began his career as a software developer and IT project manager before working for the TGW Logistics Group in a variety of key positions since 2007. Most recently, he drove innovations and trends there as Senior Vice President Future Fulfillment Center. Previously, Baumgartner had overall responsibility for Amazon as Senior Vice President Global Account. Another important station was his role as COO of TGW China.

Rainer Baumgartner comments: "I am looking forward to the new task and working with the team at HÖRMANN Intralogistics. Together, we will continue the success story and implement forward-looking intralogistics systems for our customers."

HÖRMANN Intralogistics Solutions GmbH is convinced that Rainer Baumgartner will make an important contribution to the success and growth of the company with his leadership skills, many years of experience and visionary thinking.
